

U

For the team to have an **understanding** of Children's diagnosis and needs. We have strived to have a deeper understanding of young people's behaviours through reflection and de-briefs.

N

We aim for a **nurturing** and therapeutic approach where our young people can thrive.

I

To tailor the care to each **individual** and to overcome any barriers that prevent our young people from having the best quality of life.

Q

Giving each child and young person the experience and opportunity to achieve in a safe and homely environment. Preparing each young person for adulthood to ensure they continue to have a **quality of life**.

U

To have an **unconditional** acceptance of each young person and their behaviours. Ensuring we meet each individual's needs taking any barriers of learning into account.

E

Striving for **excellence** and outstanding levels of care and professionalism.
