

Implementation

Positive Support Plans (PSP)

A Positive Support Plan (PSP) which falls within DFE's guidelines, identifies the strategies and support needed for an individual young person during varying emotional states. Plans are linked to the Zones of Regulation, Therapeutic advice, Team Teach and are regularly updated and reviewed. They also take into account **Pupil Voice**, Functional Behaviour Analysis and Risk Assessment. If there is a change in behaviour, there is an immediate review of the strategies and support during a transdisciplinary meetings consisting of therapists, education staff and care staff.
